* COVER: Early cavemen observe, in bewildered amazement, a
bright glowing object of mystery hovering in the
heavens.
Were these objects spaceships from other planets?
Did the occupants of the crafts make direct contact
with early man? Have they possibly aided man
throughout history?

FLYING SAUCER DIGEST is published quarterly by the UNITED AERIAL PHENOMENA AGENCY (U.A.P.A.) in Cleveland, Ohio. Editor: Allan J. Manak; Assistant Editor and Illustrator: Ronald Jos. Pelger; Assistant Editor: Elmer Schutt; Columnists: Robert Easley; Kenneth L. Larson; Lawrence Blazey. Subscription is \$2.50 (\$3.50 Foreign) for (four) quarterly issues (one year), or \$4.75 (\$5.75 Foreign) for (eight) issues (two years). Single copies 75¢ (85¢ Foreign). The UNITED AERIAL PHENOMENA AGENCY is a non-profit organization dedicated to the better understanding and clarification of the subject of Unidentified Flying Objects (UFO's). All correspondence and manuscripts are welcomed, but must be accompanied by stamped, self-addressed envelope if desired to be returned. Address all correspondence to: U.A.P.A., P.O. BOX 9811, Cleveland, Ohio 44142.

EDITORIAL

Allan J. Manak

It was brought to my attention that the real problem in UFOlogy is not the unsuccessful attempt to catalogue sightings, nor the wishful and fancyful way of trying to determine which star system these strange ships are coming from, or the exploring technique where these UFOnauts are supposed to be hiding--but the very clear possibility of the witnesses being a little bit of a liar. Now, I'm not saying that these same witnesses did not see something, I'm trying to bring the point across that people, all people, exaggerate a little and some people a little more than others. There are times when you say to yourself - "What am I doing here in UFOlogy"? Then there are the rewards - the rewards to a UFO researcher is the circular proof of a landing site by an unknown. By using laboratories for soil examination tests and Geiger counters for proof of radiation, there can be little doubt that something was there. This is the reward that drives a UFO researcher to the point that no one, or thing, will ever change his mind about the reality of UNIDENTIFIED FLYING OBJECTS.

Yet, we the researcher are always in contact with people or persons that will take advantage (or I should say that try to take advantage) of one's knowledge of the subject.

For instance, we have had people tell us we were liars - that we were not seeing what they were seeing or that stars "can't move", therefore, the little light they were seeing is a flying saucer, whether we want to believe it or not. We've also had sincere people (call us out of bed in the middle of the night) at a certain automotive plant night shift call us to say that a UFO was hovering about a quarter of a mile away. Upon checking at the same point but with a pair of binoculars, one could definitely see it was a balloon for a local gas station that was advertising a new product.

All the while that we were questionning the witness about the strange object, he was telling us that the object wasn't there an hour ago, or it came from the west and just stopped there, or it keeps blinking on and off and changes color also.

So....a UFO researcher not only has to have a good history of UFOlogy but needs to know a little astronomy as well as having plenty of patience.

each or 3/\$1.00 - This offer will last until Sept.
15, 1969 -- No Exceptions.

UFO RETROSPECTIVE

At 12:40 A.M. July 20, 1952 while eight men were working in the radar room in the control center at Washington, D.C. seven "blips" appeared on the scope. No planes were scheduled to arrive, so the radar was checked and found to be perfect. At one time the objects changed direction at an angle of 90 degrees without decelerating or describing any curve. Another object made a turn of 180 degrees and then it reversed its course.

Later a commercial plane followed a shining circular light after take off, then the object suddenly shot ahead at tremendous speed and disappeared in a few seconds.

At three o'clock in the morning two jet planes landed. The objects disappeared. When the jets left the object returned. This lasted until daybreak. On July 26, 1952 the strange visitors returned. This time as well as July 20, the objects were clocked at speeds of 5,000 to 7,000 miles per hour on three different radars.

Famous Quotes

"Many people hold that myths are products of human fantasy and have nothing in common with reality. This is a profound error."

Yuan Ke

The Higher Power of The Flying Saucers

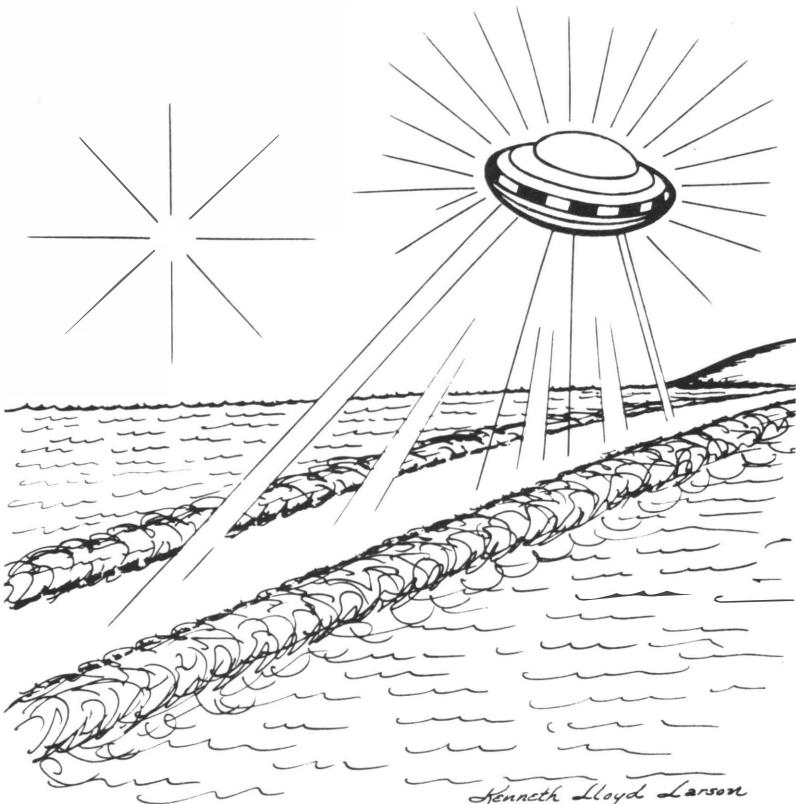

Kenneth Lloyd Larson

In a recent newspaper article published in the Los Angeles Times, Dr. Hudson Hoagland, a member of the board of directors of the American Association for the Advancement of Science, said that he thinks that UFOs will be largely forgotten. However, his statement seems to concern itself with the "latter day concern with saucers." Therefore, if he thinks that UFOs are a product of the last few decades, his reasoning is at fault, because the objects were seen over America during 1896--1897 and earlier years. On November 22, 1896 (and on other days during that month), a cigar-shaped object flew over San Francisco, California, passed over groups of people, crossed the bay and then reportedly disappeared to the east-northeast. A few minutes later, a similar object flew over Red Bluff, about 162 miles to the north, at high speed and performing changes in direction. During my research into this case, I determined that if the same object appeared over the two cities, it could easily have had a velocity of around 1,900 miles per hour!

Now, one other significant item should be noted. Ten years later--on April 18, 1906-San Francisco experienced a powerful earthquake. As many people know, the San Andreas fault extends through California for a good distance. I have often wondered if the UFO report over San Francisco may have had some connection with the later earthquake. That is, if the object were a "wonder in the heavens" or some type of divine sign about coming events.

This could be one of the functions of the UFOs: That they know about future events on the earth and may cause them to happen. If this theory is true, it seemingly suggests that a Higher Intelligence or Creator does guide and act upon the human race and its destiny. Many UFO researchers have suggested that the UFOs caused the power failure over the northeastern USA during November, 1965. However, it is a debatable question as to whether any fault zones relate to the flight of the saucers. On the other hand, a New Zealand writer named Bruce Cathie wrote and published a recent book, called HARMONIC 33. Cathie, an airline pilot, made an analysis of confirmed UFO sightings over New Zealand and reportedly discovered that they occurred in a systematic grid pattern. Further research, he said, proved that the New Zealand grid was a small section of a worldwide grid and that UFO sightings are inter-related with other unexplained phenomena. He then cites such events as Krakatoa, volcanoes, earthquakes, meteor sites, etc. (The reader can obtain his book through Murray's Bookshop, 73-75 City Chambers, Queen Street, Auckland, New Zealand, price \$3.50).

I can distinctly recall an article that I wrote for Raymond Palmer's "Flying Saucers" magazine, June, 1964, pointing out that the San Francisco Examiner published an account of a "big silver ball that hovered" about 4 hours near Greenfield, California, December 14, 1962. Several policemen watched the object. Then, I compared this sighting to the cracking of the Baldwin Hills Dam, on December 14, 1963 (one year later). Some researchers have suggested that at the time of crisis, such as a nuclear war on earth, the UFOs shall intervene so as to save the human race from complete self-destruction. This compares to similar concepts set forth in the Holy Bible, where the "angels of the

Kenneth Lloyd Larson

THIS IS A DEPICTION OF WHAT MIGHT HAVE HAPPENED WHEN THE "PILLAR OF CLOUD" HOVERED OVER THE AREA, DIVIDING THE WATERS, ALLOWING THE ANCIENT ISRAELITES TO PASS OVER THE DRY PASSAGE. IN HIS BOOK, THE BIBLE AND FLYING SAUCERS, BARRY DOWNING SUGGESTS THAT SOME TYPE OF A UFO MIGHT HAVE GUIDED THE ISRAELITES DURING THE EXODUS, DIVIDED THE WATERS, BY SOME POWER OR AN ANTI-GRAVITATIONAL BEAM, SO THAT THEY COULD PASS OVER THE LAND (EXODUS 13). ALSO, THE LORD DESCENDED ON MOUNT SIANI IN A THICK CLOUD WITH FIRE, WITH THE PILLAR REPORTEDLY GLOWING AT NIGHT. BARRY SUGGESTS THAT SUPERNATURAL BEINGS GUIDED AND PROTECTED THE ISRAELITES. THUS, THE OBJECT REPORTEDLY CAUSED A CHANGE IN THE COMPOSITION OF THE LAND AND WATER AREAS THRU A BEAM FROM THE SKY.

statements and the gold plates and other later records that may be discovered in the future. This is what my book is about.

Here again, we should recall that (as Dr. James E. McDonald pointed out) UFO sightings increased on the order of two or three magnitudes around 1947. This was soon after the first atomic explosion on the earth. We should remember, too, that a few years previous to this year a disc-shaped object hovered over a base in the Antarctic--and sometime later a volcano suddenly exploded at the site, after being dormant for decades. Thus, it is possible that the UFOs can cause some reaction on the earth to their power units or electromagnetic pulses, etc. They seem to be watching and waiting. But as John Keel pointed out, there have been steady reports over the years after 1947 and before that year. There is an unusual passage in Joel 2, where he speaks of "Blow ye the trumpet in Zion, and sound an alarm in my holy mountain...the appearance of them is as the appearance of horses, and as horses, so do they run. Like the noise of chariots on the tops of the mountains do they leap...And Jehovah uttereth his voice before his army; for his camp is very great; for he is strong that executeth his word; for the day of Jehovah is great and very terrible; and who can abide it?" "For then shall be great tribulation, such as hath not been from the beginning of the world until now, no, nor ever shall be. And except those days had been shortened, no flesh would have been saved: but for the elect's sake those days shall be shortened." (St. Matthew 24). Another unusual passage comes in Zechariah 1: "I saw in the night, and, behold,

Lord" come through the heavens to the earth so as to serve the Lord's will and power.

Recently, I wrote and published a small book, called THE TOPSTONE, concerning various theories about the UFOs and related topics, engineering drawings, mathematical data, history, religious records, America, etc. The price of this book is \$2.00, obtainable thru Kenneth Lloyd Larson, 5630 Sawtelle Blvd., Culver City, California 90230. The basic theory here is that certain American UFO report-sites were mathematically-related to the possible discovery of the missing topstone of the Great Pyramid and to other ancient American records, known as the plates of Moroni, and the American Joseph Smith. These gold plates were reportedly discovered by Smith near Manchester, New York, and were dug up from the ground on September 22, 1827. Smith reportedly contacted the occupants of an aerial vehicle near there around March 22, 1820. Thus, later American UFOs may be related to Smith's

a man riding upon a red horse, and he stood among the myrtle-trees... And the man that stood among the myrtle-trees answered and said, These are they whom Jehovah hath sent to walk to and fro thru the earth..."

Thus, we see an unfolding panorama before us, and the UFOs have come and seem to be waiting. But for what? It has been my tenet that they know about the past, the present and the future events, and they may control certain events and represent Higher Intelligence on a higher level. Their presence has been on radar, and animals know they are there by their reactions. I am of the opinion they are related to the phenomena seen by the Israelites during the Exodus.

Beings in Argentina - Part Two

Robert S. Easley

According to the Commission of Unidentified Flying Objects in Argentina, two red-glowing UFOs appeared over a settlement of civilized Indians, called Chaloc, on or about 22 February 1965. One of the egg-shaped objects landed on tripod legs on a near-by hill. Three humanoid beings about 4½ feet tall emerged from the craft and proceeded to walk around it, as if inspecting it for damage. The beings wore opaque helmets over their heads.

At this time one of the Indians hurried to police headquarters, but by the time the authorities arrived the unknown object was leaving, giving off a brilliant white light in the process.

A policeman who saw the object succeeded in taking three photographs of it. Further investigation revealed three depressions in the ground, supposedly where the object rested; and scorched brush, apparently from the exhaust.

The photographs, samples of the landing site, and the policeman's report were sent to Buenos Aires for examination and analysis. As yet, no official or unofficial word has been released from the Buenos Aires government - despite the fact that the sighting is four years old!

On 30 March 1965 three objects were seen flying over the town of Jose de San Martin. Once outside the town one of the objects appeared to touch down. Immediately local police went to the area, and upon arrival, saw two humanoid-type creatures approximately 15 feet southeast of the cigar-shaped, bluish-white object.

After apparently hearing the police car, the beings ran to the object and scampered up a ramp leading to one of the ends of the 'cigar'. The object then rose straight up until it was lost to sight.

Upon checking the area, the police found that the grass was flattened where the object had sat. No depressions, footprints, or radioactivity could be found.

1965 was a busy one, not only for the United States, but also for many of the South American countries. The saucers do indeed have a global interest in our planet.

STRANGE OBJECT

On January 30, 1952, a very large, brilliant wheel-shaped object with spokes was sighted over Korea. The wheel revolved horizontally as though rolling through the sky. An orange brilliant light encompassed the whole surface of the object. Bluish flames were also seen all around the outer edge.

One witness claims to have thought he saw what looked like small square windows along the spokes. He also said the center of the huge wheel had a large dome protruding from it.

The enormously strange wheel made no noise as it traveled north and finally vanished over the horizon.

Recent News and Rumors

The Congress of Scientific UFOlogists might be breaking up according to a recent survey taken by a UFO group in Cleveland. The group polled 24 UFO organizations with the replies from 21 indicating in favor of a major change or overhaul in the Congress set-up, with major changes coming within the participating organizations themselves.

For the past six months four (4) major UFO organizations have been meeting every two weeks in and around the Cleveland area. Much has been accomplished in the areas of problems in UFOlogy. Watch this column for some shocking events dealing with this new and different approach to UFOlogical problems and answers from this special group!

UFO MAGAZINE

SUBSCRIPTION OFFICE
P.O. Box 2708
Cleveland, Ohio 44111

Editors:
Rick and Janie Hilberg

Dear Friend:

Since 1947 the American public has been aware of mysterious objects in the sky. Literally millions of persons have reported spotting what the press refers to as "flying saucers." These saucers have been spotted over all the main metropolitan centers of the world, as well as over barren wilderness. Saucers have been spotted from speeding jet airliners, have caused auto engines to stall, and have caused serious physical injury to some witnesses. In other words we are faced with a tremendous enigma, one that staggers the imagination!

UFO MAGAZINE was formed in 1962 with the purpose of making some common sense out of the saucer mystery. In the time since our founding we feel we have done much to clear away the stigma of mysticism and fakery that has unfortunately clouded UFO research. We wish to invite you to join us in our quest for the truth.

UFO MAGAZINE is a professionally printed 6x9 inch magazine published quarterly. Our pages contain interesting and worthwhile articles on recent UFO reports, as well as well-reasoned speculation regarding the elusive disks. A one year subscription is two dollars (\$2.) in the U.S. and Canada, three dollars elsewhere. Fill out the form on the bottom of the page and mail today with your check or money order.

Hoping you will join us in our search,

Rick R. Hilberg
Editor

ANALYSIS IN ASTRONOMY

Ronald Jos. Pelger

The strange possibilities of life existing on the moon has, many times, intrigued man from the beginning of his own existence here on earth.

Many theories and ideas of some type of life form on the lunar landscape are not only fantastic, but highly incredible. Most ideas come from people as just plain "wishful thinking". Monsters, ugly creatures, and weird looking beings are some of the incredible thoughts and "guesses" inspired by writers, novelists, story tellers, and even a few of the many UFO enthusiasts.

Some of the so believed "moon monsters" are said to dwell beneath the moon's surface. The mysterious lunar craters are believed to be the entrance and exit-ways leading to the eerie dwellings. These ideas, however, are highly unbelievable and sound as though they belong in the world of fantasy. But, then again, not definitely impossible.

The ancient Greeks wrote many works which contain fantastic beliefs that strange, gruesome inhabitants roam the surface of the moon sending evil spirits down on earth people. These collections of writings are most improbable as superstitious beliefs were highly popular then.

Due to enormous temperature ranges from well over 100 degrees during the day and dropping at night far below the freezing point. It is then established that animal or vegetable life, "as we know it", cannot exist outside a certain temperature range.

The moon has very little or no magnetic field around it to

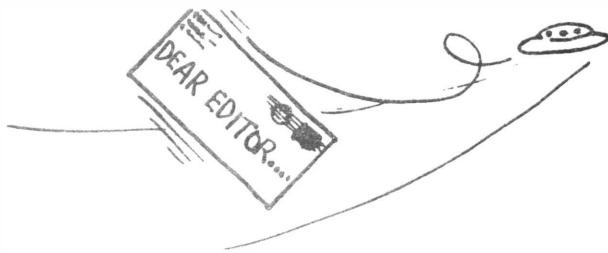

deflect the intensity of the sun's rays, which have a deadly effect from lethal radiation and particles. It is believed, that where direct sunlight is unable to reach (areas such as caves, crevices, deep rills, etc.) some types of life forms may be able to survive. Although there is no known available water, the chances of these life forms existing do not appear likely. However, as we mentioned before, the possibility of life "beneath" the surface has its slim chances. Again, this form of life would probably be in the low plant stages, but only if the plant life evolves in permanent darkness.

Thus, whatever you may suffice to believe, we will just have to wait until the day our astronauts make a soft landing on the

lunar landscape. It will only be then, when they are able to explore and perform experiments, that conclusions about life existing on the moon can be made for sure.

Readers Say

"Your WHO SAID THAT articles are a blessing to your very good magazine. Keep up the good work. Would it be possible to make your magazine a bi-monthly instead of a quarterly?" M. Hollister, Hollywood, Calif.

Ed. "Who said that" always gains praise - I think for the time, we will stay quarterly.

"Where does this guy Larson get his crazy ideas?"
P. Hornne, Dallas, Texas

Ed. Mr. Kenneth Larson is an expert in research on the subject of UFOs and their relationship to different effects on both nature and man.

"Here is my last issue back, please send me my money as soon as possible." H. Tomeck, Tulsa, Oklahoma

Ed. Sorry you feel this way, but then no one's perfect.

Ed's. Note: Please make all comments as brief and to the point as possible. Send all correspondence to "Reader's Say"

NOW! AT LAST! A new and different magazine consisting of every type of strange and unknown phenomena in and out of this world. It's happening! Why not read about it? Disappearing people, ghost ships, strange people and civilizations, ESP, sunken continents, unexplained sky falls, ancient lost cities, ghosts-poltergeists, and many other strange encounters. PHENOMENOLOGY -- large, fully-illustrated --- only \$1.00 p.p.

Mysterious Bird Aliens

W. A. Schumann

Since late 1966, strange unusual "bird-like" creatures have been tormenting areas of West Virginia, southern Ohio, and parts of Pennsylvania. Some of these large creatures are known as "moth man" because they tend to stalk primarily at night.

Some of the creatures have been estimated to be about twelve feet tall with wingspans of up to nine feet. When in flight, they have been clocked at speeds in excess of 100 miles per hour.

The present day UFOlogists seem to think that "moth man" may have originated from UFOs. Some witnesses claimed to have seen these bird-like "things" drop from hovering saucer-shaped crafts and return after flying about in search of something or "someone".

FACT OR FICTION

Everyone today is talking about the Condon UFO report to the public, but did you know that there was a Robinson report made especially for the Air Force, that actually explained in detail what the UFOs are and why they are here. Get this -- the Robinson report came out in 1953, and it still is a secret.....A gigantic tubular shaped object was seen over Florida the week of March 10 thru 13.....The object that landed, or crash-landed back in 1957 in New Mexico that had three charred bodies beside the strange craft, was proven to come from a distance of over 100 light years, due to a new technique of dating space articles that enter our atmosphere.....The coast of California is sinking fast.....The Russians already have landed a man on the moon, but due to a fatal accident in the descending capsule the news was hushed up.....Scientists have been experimenting with flight vehicles powered by guided beams.

New Book

The editors of "Flying Saucer Digest" very highly recommend the newly released book "The Ancient Atlantic" by L. Taylor Hansen. Published by the ingenious Ray Palmer, this large hardbound book of over 400 pages is filled with drawings, photos, maps, charts, and valuable material pertaining to the Atlantic Ocean from the very beginning.

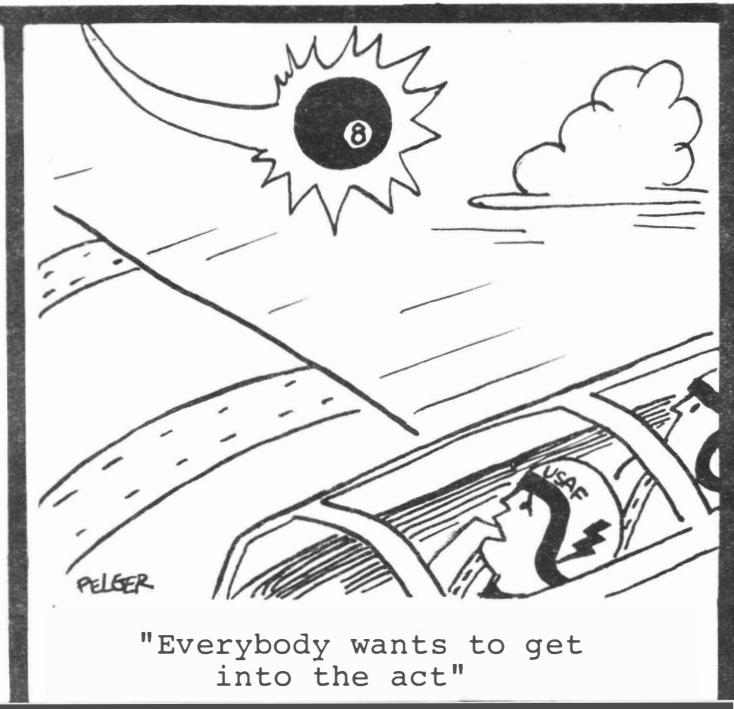

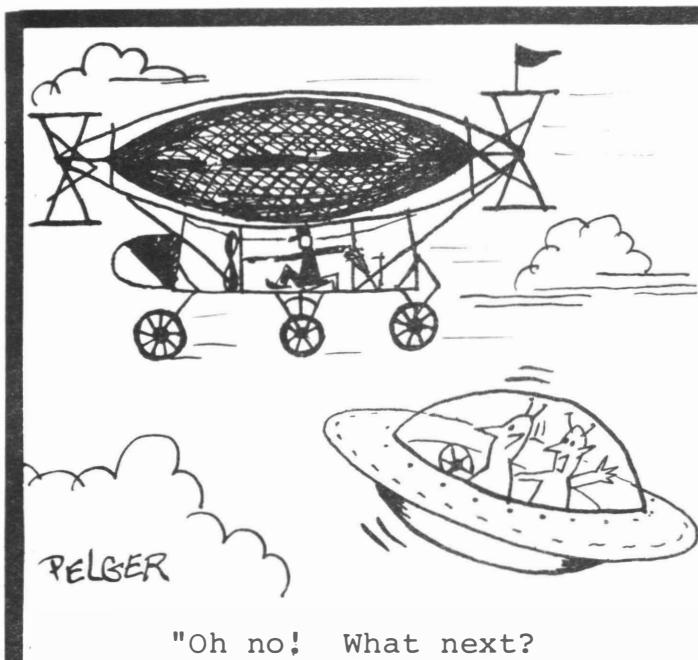

Where did man come from on this planet? How long has he been here? Who has he been Who is he now? Were there true civilizations hundreds of thousands of years ago? Was there really an Atlantis? A Lemuria?

We received our copies of "The Ancient Atlantic" recently and think it is the greatest book Palmer Publications has turned out yet.

You may obtain a copy of this fine book by sending \$22.50 to Palmer Publications, Rt. 2, Box 36, Amherst, Wisconsin 54406.
